

# Rubber-like Resin

Material Data Sheet

**SLA MATERIAL**

## APPLICATIONS

It is a black, flexible material that replicates the characteristics of common rubbers for injection moulding.

### TECHNICAL PROPERTIES OF THE LIQUID MATERIAL

Environmental Usage Values	22°C - 27°C - max, RH 40% - 60%
Appearance / Color	Liquid/ Black
Viscosity	1400 ~ 2100 mPa•s a 25°C
Density	1 g/cm <sup>3</sup>

### TECHNICAL DATA AFTER UV TREATMENT

Elongation at Break	30 ~ 60
Hardness ( Shore D)	22 ~ 25
